PROFESSIONAL SUMMARY

Business Analyst/Data Analyst skilled in SQL, Python, Power BI, and Excel with experience in analyzing complex datasets, building dashboards, and delivering actionable insights to support business decisions. Proficient in requirement gathering, business requirements documentation, stakeholder management, data validation, reporting, and translating business needs into actionable solutions. Strong analytical and problem-solving abilities with experience supporting Agile delivery, process improvement, and data-driven decision making.

SKILLS

- Data Analysis & Reporting** — SQL, Python, Data Analysis, Data Validation, Reporting, Business Analytics
- Data Quality & Management** — Data Validation, Data Quality Controls, Data Reconciliation, Data Governance, ETL Concepts
- Data Visualization** — Power BI, Tableau, Dashboard Development, Data Visualization
- Data Management** — Relational Databases, Query Optimization, Data Modelling
- Business & Stakeholder Management** — Requirement Gathering, Requirement Analysis, Business Requirements Documentation, Stakeholder Management, Process Improvement, User Stories, Process Flows
- Tools** — Excel (Pivot Tables, VLOOKUP), Jira, Agile Fundamentals, Documentation, Backlog Management, Confluence (Basic)

PROJECTS

- SaaS Subscription Churn & Revenue Analytics**
- Analyzed 10K+ customer subscription records using SQL and Python to identify customer behavior, churn trends, and revenue patterns.
 - Performed data validation, quality checks, and exploratory analysis to ensure accuracy and reliability of business reporting.
 - Developed dashboards and reporting solutions using Power BI, delivering actionable insights and supporting data-driven business decisions.
- HR Analytics: Employee Attrition & Performance Analysis**
- Processed and analyzed 8K+ HR records using Python and SQL to identify key attrition factors and workforce trends.
 - Applied statistical analysis and visualization techniques across 10+ employee metrics for performance insights.
 - Developed Power BI dashboards with department-wise KPIs and interactive analytics reports.
 - Built datasets and reports to support workforce analysis and business reporting requirements.
- Sales & Business Insights Dashboard**
- Designed Power BI dashboards analyzing 5K+ sales transactions and customer behavior trends.
 - Applied SQL query optimization and dimensional data modelling techniques to improve reporting performance and maintain data consistency.
 - Developed performance dashboards and reports to monitor business outcomes and support operational decision-making.

INTERNSHIP

- Data Analytics Intern – Apex Planet Software Pvt. Ltd.** Remote
- Performed data extraction, analysis, validation, and reporting across complex datasets using SQL and Power BI.
 - Collaborated with stakeholders to gather requirements, document business needs, support reporting initiatives, and align solutions with business objectives.
 - Developed dashboards, performed data quality checks, reconciliation, testing, and validation activities to ensure reporting accuracy and reliability.

VIRTUAL EXPERIENCE

- Deloitte Australia, Data Analytics Virtual Experience (Forage)** 01//01/2026 – 01/02/2026
- Completed a data analytics job simulation focused on business insights.
 - Built interactive Tableau dashboards for data visualization.
 - Used Excel to analyze and classify datasets.

EDUCATION

- B.Tech-Artificial Intelligence & Machine Learning**, Vignan's Lara Institute of Technology & Science 2023 – Present
CGPA-8.56 Guntur, Andhra Pradesh

CERTIFICATES

- HackerRank** - SQL **Deloitte Australia** - Data Analytics Virtual Experience **Geeks for Geeks** - Python Course
