PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Power BI, Excel, and Python with experience in dashboard development, data modelling, and business reporting. Proficient in SQL querying, KPI reporting, data quality assurance, and translating business requirements into actionable insights through data visualization and analytical problem-solving.

SKILLS

Business Intelligence & Visualization — Power BI, DAX, Power Query, Dashboard Development, Data Visualization, KPI Reporting, Reporting

Data Analytics — SQL, Python, Data Cleaning, EDA, Data Validation, Data Quality Assurance

Data Modelling — Query Optimization, Data Modelling, Dimensional Modelling, Star Schema, Fact & Dimension Tables, ETL Concepts

Reporting & Collaboration Tools — Requirement Analysis, KPI Development, Business Metrics, GitHub

PROJECTS

SaaS Subscription Churn & Revenue Analytics

- Analyzed 10K+ customer subscription records using SQL and Python to identify churn trends and revenue patterns.
- Performed data validation, quality checks, and exploratory analysis to ensure accuracy and reliability of business reporting.
- Developed Power BI dashboards and reporting solutions with 12+ business KPIs and meaningful business metrics, enabling data-driven decision-making.

HR Analytics: Employee Attrition & Performance Analysis

- Processed and analyzed 8K+ HR records using Python and SQL to identify key attrition factors and workforce trends.
- Applied statistical analysis and visualization techniques across 10+ employee metrics for performance insights.
- Developed Power BI dashboards with department-wise KPIs and interactive analytics reports.

Sales & Business Insights Dashboard

- Designed Power BI dashboards analyzing 5K+ sales transactions and customer behavior trends.
- Applied SQL query optimization and dimensional data modelling techniques to improve reporting performance and maintain data consistency.
- Created interactive reports with 15+ KPIs to support business decision-making and sales analysis.

INTERNSHIP

Data Analytics Intern – Apex Planet Software Pvt. Ltd.

Remote

- Developed Power BI dashboards and reporting solutions, delivering data visualizations and KPI-driven insights for business reporting.
- Performed SQL querying, data extraction, transformation, validation, and analysis across complex datasets while ensuring data quality, accuracy, and consistency.
- Collaborated with team members and stakeholders to translate business requirements into meaningful metrics, reports, and actionable insights.

VIRTUAL EXPERIENCE

Deloitte Australia, Data Analytics Virtual Experience (Forage)

01/01/2026 – 01/02/2026

- Completed a data analytics job simulation focused on business insights.
- Built interactive Tableau dashboards for data visualization.
- Used Excel to analyze and classify datasets.

EDUCATION

B.Tech-Artificial Intelligence & Machine Learning,
Vignan's Lara Institute of Technology & Science
CGPA-8.56

2023 – Present
Guntur, Andhra Pradesh

CERTIFICATES

HackerRank - SQL	Deloitte Australia - Data Analytics Virtual Experience	Geeks for Geeks - Python Course
